RENO, WASHOE COUNTY, NEVADA, FRIDAY, JULY 6, 1883.

NO. 83

MISCELLANEOUS.

Failing!

That is what a great many people are doing. They don't know just what is the matter, but they have a combination of pains and aches, and each month they grow worse.

The only sure remedy yet found is Brown's Iron Bitters, and this by rapid and thorough assimilation, with the blood purifies and enriches it, and rich, strong blood flowing to every part of the system repairs the wasted tissues, drives out disease and gives health and strength.

This is why Brown's Iron Bitters will cure kidney and liver diseases, consumption, rheumatism, neuralgia, dyspepsia, malaria, intermittent fevers, &c.

Mr. Simon Blanchard, a well-known citizen of Haystack, Meade county, Kentucky, says: "My wife had been sick for a long time, and her constitution was all broken down and she was unable to work. She was advised to use Brown's Iron Bitters, and found it to work like a charm. We would not now be without it for any consideration, as we consider it the best tonic in the world."

Brown's Iron Bitters is not a drink and does not contain whiskey. It is the only preparation of Iron that causes no injurious effects. Get the genuine. Don't be imposed on with imitations.

D. DEBERNARDI & CO.

PETALUMA CARTS.

I HAVE BOUGHT THE RIGHT OF the Petaluma cart for Washoe County, Ormsby, Douglas and Lyon counties, Nevada, and am manufacturing them in Reno. I am prepared to furnish any size or size on short notice at the lowest price.

J. L. McFARLIN IS MY AGENT

And will always be at the office. Address him, as I expect to be away canvassing the country. [J20] A. K. LAMB

CANDY Send \$1, \$2, \$3, or \$5 for a retail box by express, of the best candies in America, put up in elegant boxes and strictly pure. Suitable for presents. Express charges light. Try it once. Address

CANDY C. F. GUNTER, CONFECTIONER, CHICAGO, ILL.

ICE CREAM PARLORS.

I HAVE OPENED ELEGANT ICE CREAM PARLORS in the building lately occupied by Dodge in COOK'S BUILDING.

And am prepared to serve Cream of the very best quality by the plate, quart or gallon. Also a full stock of fresh Candies always on hand. Ice cream served all hours. [J20] O. BOY BOGOTA.

COAST ITEMS.

Monday was the warmest day of the season at Dunnigan.

The Mojave and Maricopa Indians in Arizona cremate their dead.

The Cosmopolitan Hotel at Calico was burned Tuesday night. Loss, \$6,000; insurance, \$3,000.

Jaime Vaca was fatally shot by officer Rheim at Dixon, while endeavoring to escape arrest.

It is stated that there are at the present time no less than 60 cases of smallpox at Phoenix, A. T.

Cajame, Chief of the Yaqui Indians in Mexico, was assassinated last week during the feast of St. John.

The captured Chiricahuas are still held at San Carlos under very little restraint, and still have possession of their arms.

During the fire at Astoria the prisoners in the jail escaped. Citizens have organized a vigilance committee to preserve order.

John McGuire was accidentally shot on Tuesday at Ten-Mile Creek, Oregon, by a young man named Leonard. The wound is serious.

Near Lewiston, Idaho, an Indian horse-thief was lassoed and dragged to death on Sunday evening by white cow-boys for attempting to sell them stolen horses.

Leland Stanford has purchased the Rowles farm, comprising some 10,000 acres, adjoining his Vina property. He now has in the vicinity of Vina, where his great vineyard is situated, over 20,000 acres, and is bargaining for more.

The work of constructing the bridge across the Colorado river at the Needles has been resumed, but progress is very slow, and it is impossible to say when the connection of the Atlantic and Pacific and the Southern Pacific Railroads will be made.

Thomas E. Beven, Deputy Sheriff of Yuba county, Cal., received \$808 reward for the capture of two highwaymen. He put the money in a bureau drawer in his house at Wheeland, and thieves came in the night and carried off the treasure under his very nose.

The lifeless body of Miss Ada Fern, a daughter of the proprietor of the Bonanza Springs, in the southern part of Lake county, Cal., was found lying in the road on Friday night last. Her death is supposed to have been caused by falling or having been thrown from her horse.

Jonas Spect, a pioneer of 1848, died very suddenly at Colusa, Cal., on Tuesday. He discovered gold in Yuba river in 1848, which was the first discovery north of the American river. He was elected to the first Constitutional Convention and ran to the first State Senate. The first mining laws were drafted by him, and he established the first public ferry in the State. He was 66 years old.

SPRINGFIELD MASS.—The Daily Union makes the following public: "Our reporter in speaking with Mr. J. B. Weston, Supt. Car Works, Boston & Albany Railroad, was informed by him and that he had rheumatism in the shoulder and could find no relief until he applied the great pain-banisher, St. Jacobs Oil. 'I must confess,' he said, 'that I was greatly surprised at the good results.'"

Two-Thirds of a Bottle Cures. DR. R. V. PIERCE: Dear Sir—I have been taking your "Favorite Prescription" for "female weakness." Before I had taken it two days I began to feel stronger. I have taken but two-thirds of a bottle and believe I am cured. Gratefully, Mrs. C. H. LONETT, Watseka, Ill.

Invigorate the Food For the brain and nerve is what we need in these days of rush and worry. Parker's Glaxo restores the vital energies and brings good health and joyous spirits quicker than anything you can see. Tribune.

A true tonic medicine, a blessing in every household, is Brown's Iron Bitters. The finest brand of Kelly's celebrated Key West Cigars are to be had at John F. Myers' Drug Store, Virginia street, next to Barnett's. [J20]

THE STATE FAIR.

Are we to have a State Fair this year? Is a question which has been frequently asked of late. It is high time steps were taken if the society intend doing anything about it. Of course the trustees are powerless to do anything without the hearty co-operation of the citizens, and they would be foolish to undertake it. If the business men in Reno think they can afford to let the society die for the want of proper encouragement from those who are benefitted by it, then the trustees have a poor show of making a success, but if anything is to be done now is the time to do it. We would suggest that the trustees call a meeting and extend an invitation to the business men to be present and talk the matter over and decide what is best to do. If no fair is to be given let the fact be generally known, and if we are to have one go about it now.

HOW HIGH CAN THEY GO?

A New Yorker named Osborne wants permission to build a building 182 feet from curb to roof, but there is much objection to it. There must be a limit to the mania for high buildings, and the Board thinks it is nearly reached. The rent of the proposed building will be about \$100,000 per annum on an investment of \$650,000. It is regarded by many good architects as a doubtful experiment, many of them believing that the limit will be reached at a less height than the 15 stories, proposed by Mr. Osborne. On the top of this immense pile it is proposed to erect a cupola 40 feet high, making the peak 222 feet above the curb line, or only 62 feet lower than the spire on Trinity Church.

A WORD TO THE WISE.

The Reno GAZETTE of Saturday says: If some of the immigrants coming in daily would stop off here they could get steady work at good wages. Every farmer on the meadows is sadly in need of help. They are employing Indians, Chinamen, or anything else they can get to work. This information is not sufficiently precise. "Good wages" is too indefinite. If any farmer on the meadows needs help he should pay his local paper a dollar or two for an advertisement, saying how many men he wanted; what work was to be done; hours of labor; rate of wages, etc. There are scores of men here who would gladly go where they could get fair wages for a fair day's work, but they don't care to apply for work and be offered \$1 a day, or 13 or 14 hours. Let the GAZETTE, therefore, be more precise.—*Virginia Chronicle.*

The hint given by the *Chronicle* is a good one, and if taken, would, no doubt, bring in all the laborers required within a few days. It is less than eight years since the first telegraph in Japan was erected, and there are now nearly 6,000 miles of wire in operation. And what is more remarkable, probably, is that the whole of the Morse instruments in the new head office, as well as the "test-box," and a "crossover," or time transmitter, by which the correct time is transmitted daily, were all made in Japan by natives.

The narrow-mindedness of the Democratic Board of Education in Stockton, California, shown by the sweeping discharge of all Republican teachers and the employment of Democrats, cannot be regarded in any other light than as a contemptible piece of political jobbery. No liberal-minded American ever asks an applicant for a position as teacher anything about their political proclivities.

Soldiers Regain their Liberty.

OMAHA, July 6. Twelve soldiers confined in the guard house at Fort Omaha enroute to Ft. Leavenworth to the military prison, tore up the floor and tunneled out last night. Three have been captured and the others are still at large. Their sentences were from two to fifteen years.

Nelson Howard (colored), who killed John Kane at Mount City, Illinois on the Fourth, was hanged by a mob this morning.

EASTERN DISPATCHES.

[PRESS DISPATCHES TO THE GAZETTE.]

The Louisiana Lottery.

WASHINGTON, July 6. The Postmaster General yesterday heard arguments relative to the question of the legal status of lottery companies, which involved the entire lottery question in all its phases. General W. W. Belknap and C. W. Moulton, appeared for the Louisiana company. Mr. Staven will appear against that company. It is understood that Representative Robertson of Louisiana, also made a fight in the House against the company, at the last session. It is claimed that the Louisiana company is enjoying privileges not accorded to others; while that company maintains that it exists by and under the laws of Louisiana, and that its legal character should be recognized by the Postoffice Department. The Louisville company was also represented. Moulton spoke three hours, and at the conclusion of his argument, the Postmaster General stated that the mere fact that the lottery is recognized by the State as a legal institution, did not lessen the responsibility of the Government in the premises. He said both companies should be placed on the same footing, but did not indicate what his views were concerning the legality of the institutions mentioned.

The Hill Investigation.

WASHINGTON, July 6. It seems that the investigation of the Supervising Architects office has assumed a more serious form than was expected by the defense, for yesterday morning, the well known lawyer, Enoch Tolson, appeared as counsel Hill if, in addition to Thomas, who defends Hill, Bartlett and Robbins. Coleman introduced a copy of a letter dated January 19, 1877, from Hill to Superintendent Oakshalt, enclosing for certification, vouchers for extra work on the New York Post-office building, amounting to \$25,689.

In a Quandary.

WASHINGTON, July 6. Another question has arisen in the Treasury Department in connection with the assisted immigrants at the Port of New York. Several days ago the steamship City of Richmond arrived with seven pauper immigrants. They were landed at Castle Garden, and the steamship soon after departed on her regular trip. The question to be decided is, as to the disposition to be made of the pauper immigrants—whether to send them back to Ireland by another vessel, or allow them to remain in this country.

Indian Troubles.

HELENA, M. T., July 6. News has been received from the north that the troops under command of Lieutenant-Colonel Ilger of Fort Assiniboine, out on a scout to drive back the British Crees, met the enemy this side of the line last Tuesday, and were defeated. The Indians greatly outnumbered the troops. No particulars are received, but the report is that a courier was sent in all haste to the fort for help.

[A later dispatch contradicts the report.—ED. GAZETTE.]

Two Men Murdered.

MATAMORAS, Mex., July 5. Cajal, Chief of Young nation, was assassinated while coming from mass, during the feast at Yocu river, yesterday. It is believed that his death throws all the rich lands and sand mines open to whitemen.

At an American eating house at Saltillo, yesterday, a waiter named Guillermo Gutierrez shot Juan Sillor dead in a quarrel about \$2 50.

A Bad Day for Picaresque Seekers.

CHICAGO, July 5. Chicago paid dearly for its celebration yesterday. The record of death and bloodshed is horrible. Between six o'clock and midnight the total number of casualties footed up 38, including three deaths, five persons fatally wounded, 23 more or less hurt and maimed for life and 5 slightly injured.

A Native Old Man Done For.

OTSEGO LAKE, Mich., July 6. Alexander Perry, 50 years old, attempted to enter the house of Amos Birdwell, while the young wife of the latter was alone. He had visited her in the day, but left after making improper advances. She warned him, but he failed to regard the warning, and she shot and killed him with a Winchester rifle.

Utah Matters—The Chairman of the Commission Interviewed.

ST. PAUL, July 6. Gov. Ramsey of the Utah Commission said that the election to take place in August is really the whole matter. The election last Fall did not touch the hearts of the people. The one in August is for Probate Judges, members of the Legislature and local officers.

Through Tickets.

PORTLAND, July 6. Through tickets to Chicago and all Eastern points were placed on sale here to-day for the first time. The fare to Chicago, including one hundred miles of staging, is \$124.

MURDER WILL OUT.

Chicago, July 6. A special reports the arrest, at Downer's Lake, of a man by the name of John Reed, who, twelve years ago, shot Joan McCormick, a young girl, at Shabbona, Ills., owing to her refusal to marry him. This murder was peculiarly atrocious.

Disposing of Crook's Prisoners.

WASHINGTON, July 6. The President returned from New York last night. He went to the Soldiers' Home, where Secretary Lincoln and Gen. Crook are now in consultation with him concerning the disposition to be made of the captured Apaches.

Bible Revision.

HOBOKEN, July 5. The committee on the revision of the Old Testament continued its session to-day. The comparison of the work of the American and English Commissioners was completed.

Hotel Burned.

SPRINGFIELD, W. T., July 5. A fire this morning destroyed the Villard House and four adjoining buildings. Loss, about \$10,000.

FOREIGN TELEGRAPH.

[PRESS DISPATCHES TO THE GAZETTE.]

The Fourth in Ireland.

DUBLIN, July 5. At a National meeting held at Belfast last night, to celebrate the Declaration of American Independence, Sexton, Biggar and Sullivan sent letters of regret. The Rev. Mr. Ryley denounced the Lord Lieutenant of Ireland, whose name he says was more detested by the English people than that of Carey, Judge O'Brien, addressing the Grand Jury, at Limerick, declared that the diminution of the number of outrages since the last assizes amounted to a social revolution.

Not the Work of Fenians.

LONDON, July 6. A dispatch from Copenhagen says a prisoner named Neilson, who was charged with committing arson here, has confessed to having set fire to the Victoria docks in London, with a view of obtaining plunder. The opinion has heretofore been entertained that it was the work of Fenians.

The New Suez Canal.

PARIS, July 6. The Suez Canal Company announce that in case no agreement be made with the British Government in regard to matters concerning the new canal, DeLesseps will, at the request of the British Minister, start for London to definitely conclude arrangements for the prosecution of the work.

Did Not See Him.

BERLIN, July 6. Prince Orloff, Russian Ambassador to France, proceeded on his way to Paris without obtaining an interview with Bismark, owing to a change in the latter's government.

Cholera at Danietta.

ALEXANDRIA, July 6. The number of deaths at Danietta during 24 hours ending at 8 o'clock yesterday morning was 111. There were 43 deaths at Monsura.

Carey, the Informer.

LONDON, July 6. A correspondent of the Dublin Review reports that James Carey, the informer, has left Ireland.

TELEGRAPHIC BRIEFS.

—Rev. E. H. Pratt, assistant editor of the New York Evangelist, died on the 5th inst.

—A destructive fire occurred at Evansville, Minnesota, yesterday; loss, \$100,000.

—Two vessels arrived at Pensacola, Florida, yesterday, from Vera Cruz, with yellow fever.

—A San Antonio woman named Mrs. Christian has confessed to poisoning seven men during her life.

—A fearful storm did great damage in New Hampshire on the Fourth. Three men were killed by lightning.

—It is expected that all French troops on their way to Tonquin will arrive by the middle of July.

—The first bale of the new crop of cotton raised in Georgia was sold in Albany for 25 cents per pound.

—Whitcomb & Kendall, provision dealers, failed in Chicago yesterday. Liabilities, \$100,000; assets, unknown.

—General Crook arrived at Washington on the Fourth and laid his report before Secretary Lincoln the next morning.

—A general strike of all the coal miners in Illinois is expected soon. The cause is a law passed last Winter, allowing check-weigh men.

—The new directory of Milwaukee shows the increase in the population during the past year to have been 10,000—total population, 148,000.

—A fire broke out in the green-room of Woods' Opera House, at St. Paul, last night. The building was entirely destroyed. A variety performance had just closed, and the people were out of the house. Loss, \$15,000.

WESTERN TELEGRAMS.

[PRESS DISPATCHES TO THE GAZETTE.]

Attempted Arson—Strike Ended—Democratic Mass Meeting—Suicide—A Minstrel's Benefit.

SAN FRANCISCO, July 6.

Annie Hoffman, aged 17 years, a servant in the family of Mrs. Schroder, out of revenge for alleged ill treatment, set fire to Mrs. Schroder's house at nine different times on the 3d, 4th, and 5th inst. She always gave the alarm in time to prevent any serious damage. She has been charged with felony.

The Chinese shoemakers' strike is over. It is not known which side gained the victory, the workmen or the bosses.

A Democratic mass meeting will be held Saturday night, to take measures for demanding an extra session of the Legislature, for considering the conduct of the Railroad Commissioners.

James Casey, a painter, aged 21 years, committed suicide by taking a dose of strychnine. The rumpled cause was disappointment in love.

Emerson's Minstrels tender a benefit, which has been accepted by the Triennial Conclave Committee, for Friday night, the 13th inst.

SAN FRANCISCO NEWS.

Chinamen in Trouble—A Shoemaker Tired of Life.

SAN FRANCISCO, July 6.

The vicinity of the Police Court was crowded this morning with several hundred Chinamen, interested in the late numerous arrests for violation of the laundry license.

This morning Augustine Keinert was found in his room at No. 34, Clay street, dead, with two knives stuck in his body—one on each side. It was a case of suicide. The deceased was a shoemaker, and had been out of employment for some time, and was very despondent. He was a German, and 35 years of age.

A Narrow Gauge in Arizona.

TUCSON, July 6.

The grading was commenced on the Arizona Narrow Gauge Railroad to-day. The line is prospecting from Tucson to Globe, 125 miles. It is expected to reach San Pedro river in November and Globe before February. This road will run through the richest copper district in southern Arizona and will take in the Deer Creek coal fields, about ninety miles north of Tucson.

An Unlucky Shot.

SEATTLE, July 6.

A five-year-old girl of L. S. Rowe of this city was shot by her mother this morning. Mrs. Rowe wished to kill a cat, and when she shot at the feline the ball struck a plank, glancing from its course and hit the child above the right groin. The physicians are unable to tell the course of the ball. The little one, however, is doing well.

—Secretary Teller refuses to take official charge of General Crook's Apaches.

—Heavy floods in Surat, India, to-day caused some loss to life and great damage to property.

—The Rev. Lewis Burdick Young, a Methodist clergyman of Brooklyn, has been arrested on a charge of leading astray Josephine Harrington, aged sixteen.

—Many houses were struck by lightning in Scranton, Pennsylvania, on the Fourth. Much property was destroyed, and a number of people injured.

—The most destructive tornado ever known in that country, passed over Brattleboro, Vermont, on the Fourth, causing an immense amount of damage to crops and mill property.

—Yesterday morning, in a drunken spree, at Salt Lake, Red Joyce, a desperado, who shot a man in San Francisco about a year ago, got into a quarrel with Dan Fitz Gibbons, his half brother, and shot him in the stomach. The wounded man lingered until this morning and died.

NEW TO-DAY.

Notice of Assessment.

ROMA UNION MINING COMPANY: Location of principal place of business, San Francisco, California; location of works, Esplanade Mining District, Nevada. Notice is hereby given that at a meeting of the Board of Directors, held on the 15th day of June, 1893, an assessment (No. 2) of two cents per share was levied upon the capital stock of the corporation payable immediately in United States gold coin, to the Secretary, at the office of the company, No. 518, Sacramento street, San Francisco, California. Any stock upon which this assessment shall remain unpaid on the 6th day of August, 1893, will be delinquent and advertised for sale at public auction, and unless payment is made before will be sold on Monday, the 27th day of August, 1893, to pay the delinquent assessment, together with costs of advertising and expense of sale. By order of the Board of Directors.

Office—518 Sacramento street, San Francisco, California. J. D. DEVOT N. G.

I. O. O. F.

RENO LODGE NO. 14, INDEPENDENT Order of Odd Fellows, meets at Odd Fellows' hall, over the Congregational church, every Thursday evening. A punctual attendance of members is requested. All visiting members in good standing are cordially invited to attend. J. D. DEVOT N. G.

MISCELLANEOUS.

ROYAL BAKING POWDER
 Absolutely Pure.

This Powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders. Sold only in cans. ROYAL BAKING POWDER COMPANY, 414 W. 1st Street, New York.

JOTTINGS.

How about the State Fair?
A woman wishes a situation. See 50 cent column.

All the fashionable Summer drinks at Chase & Thyes.
The K. of P. picnic on the 14th will be the finest ever given in this State.

Go to Jake Becker's and try a glass of Fredricksburg. Lunch thrown in.

A full stock of eye-glasses at Nasby's. Thermometer at 7, 9, 11, 1, 3—50, 70, 85, 86.

Three car-loads of American emigrants, with a slight sprinkling of Chinamen, went west to-day.

From 40 to 50 overland passengers take breakfast here now, when before the change not over 20 or 25 would get off the train at all.

To know how to buy is one thing and to know where to make your purchases is another. Farmers, and, in fact everyone wishing anything in the hardware line should remember that Knowles & Bainbridge is the place to go. Their stock is large and their prices low.

No one who has ever walked the entire length of the White House clothing store, on Commercial Row, can have any conception of the immense stock carried by the Abram Brothers. No better or varied stock of men's and boys' clothing can be found in any store on this coast.

A firm like Levy & Bro. will always be found doing a good and a profitable business in any country where there are ladies who like to dress well. They seem to intuitively understand just what is needed in the dry goods line, and never fail to have on hand the character of goods wanted by their patrons.

THE PALACE.

A Popular House for the Traveling Public.

The Palace Hotel, under the management of Perkins & White, has made a reputation that will last for all time. At no station on the line of the road, between San Francisco and Chicago, is there a more popular house. Every attention is paid to guests, and the result has been that every traveler on the coast has heard about the Palace. The rooms are all large, light and nicely furnished, with ample facilities for escape in case of fire. The beds are always clean and soft. The house is centrally located, and but a step to the depots of the V. & T. and C. P. An elegant billiard parlor is connected with the house. If you register there once you are sure to go back. Perkins & White are as popular with the traveling public as is the hotel, and know how to make a stranger believe that the Palace is the best hotel and Reno the most sociable town in the world.

Change in Sleepers.
The old boys do not feel very cheerful over the change in proprietorship of the sleeping cars. The porters have had \$40 per month heretofore and picked up about \$60 in fees. Pullman has cut them down to \$15 and the perquisites will probably be less than heretofore as the passengers will complain to the Pullman conductors if they are not pleased instead of throwing up a half in order to secure attention. The conductors get \$75 a month. The company has raised the price of berths between San Francisco and Reno from \$1.50 to \$2 a berth.

A Compliment for the Reno Guard.

The *Enterprise*, in speaking of the celebration, gives the Reno Guard the following notice: The Reno Guard, under Lieutenant Laycock, presented a fine appearance, and called forth many complimentary remarks as they marched through the streets. The company is composed of young and active looking men; most of them rather handsome, too—the ladies seem to think. They acquitted themselves well in marching, and in all military evolutions, though they are but a young company.

A Nice Medicine.

To those who are compelled to resort to the use of medicine at all the invention of the telegraph is nothing to the improvements made in drugs. The difference between now and fifty years ago is as great as that between candy and castor oil. Slaven's fruit salt is one of the nicest things a body can put in his mouth. It is pure, pleasant and effective. It will almost always remove a bad headache instantly and never fails to cure biliousness, and other results of disorder.

Railroad News.

Both the U. P. and C. P. Railroad Companies will soon run trains into Salt Lake City. The C. P. will run trains over the Denver & Rio Grande Company's track, and the U. P. over the Utah Central. Mark S. Severance, formerly of this State, will act as agent for the C. P. at Salt Lake.

Nevada Beef.

Eight car-loads of fine beef cattle, shipped by A. B. Todhunter at Winnemucca, and consigned to Hayes, Carlick & Co., Oakland, went west this morning.

THE LAND OF VINES.

A Lecture on Fresno County, California.

Wendell Easton, President of the Pacific Coast Land Bureau, lectured last week on Fresno county. He is a popular speaker, and had a large and intelligent audience, who listened with rapt attention. He brought out many interesting facts. Fresno is the third county in area in the State, containing 5,600,000 acres of surface, extending northeasterly and southwesterly a distance of 120 miles, and its average breadth is something over sixty-five miles. The eastern two-fifths of the county is mountainous, comprising the highest portion of the Sierra range, and the most elevated mountain region in the United States, extending from Mount Lydell on the north, to Mount Tyndall on the south, a distance along the range of over one hundred miles. Within this region rises the Fresno, San Joaquin and Kings' rivers, amid perpetual banks of snow and ice. Fresno contains forty living glaciers. Some of these, lying under the crest of the palisades, being some two miles in length; and also many of the loftiest peaks in America. Gold-bearing quartz has been found throughout the range. Likewise, mines of copper have been found. What is termed the irrigated section of Fresno county lies in the vicinity of Fresno City, the county seat. The soil is a rich, sandy loam, every acre of which is susceptible of irrigation, and peculiarly adapted, both from climate and soil, to the cultivation of a wide range of fruits and vegetables. While it is said to be the natural home of the orange, lime, lemon, persimmon, olive, fig and raisin, and other semitropical fruits, it is equally productive in corn, wheat, barley, potatoes, cotton, tobacco, and all the fruits of the temperate zone. Two crops of grain or potatoes are harvested in one year. Raisins are produced here in great perfection, as the vines flourish remarkably well—very prolific; neither blight nor mildew affects the grape, and neither the dreadful phylloxera or any other insect known to vine-growers, troubles vineyards when irrigated. Alfalfa grows with an unexampled success. It will yield eight tons an acre a year, worth \$10 a ton, making \$80 an acre a year. The climate is said by local physicians to be very healthy. Peaches, pears, plums, apricots, cherries, apples, nectarines, almonds, oranges, lemons, bananas, figs, and many others have demonstrated their productiveness, and in many instances have already proven a source of considerable financial profit.

THE WATER.

What Superintendent Evans Says About It.

Nearly every family, hotel and saloon in town are complaining of the water furnished by the Water Company. It has a very peculiar taste, anything but agreeable, and is of a whitish or milky color. Supt. Evans says the company's reservoir is perfectly clean and that the ditch contains nothing that would taint the water in any way. He says, however, that the river, just above the head of the Highland ditch, is full of bark, sawdust and drift wood sent down from the mills above. He is of the opinion that the trouble arises from that cause. The river has been much lower this spring than ever before, consequently it has not been properly flushed this year. He is having the mains flushed to-day, and is doing all that lays in his power to remedy the evil. Over two hundred miners' inches of water is conveyed from the river to the reservoir constantly. The pipes are all clean, and work of flushing the pipes having been completed.

The Honey Bee's Labor.

Each head of clover contains about 60 distinct flower tubes, each of which contains a portion of sugar not exceeding the five-hundredth part of a grain. The proboscis of the bee must therefore be inserted into 500 clover tubes before one grain of sugar can be obtained. There are seven thousand grains in a pound, and, as honey contains three-fourths of its weight of dry sugar, each pound of honey represents 2,500,000 clover tubes sucked by bees.

Fire at Clinton.

The Pacific Lumber and Wood Company's boarding-house at Clinton, two miles east of Boca, was destroyed by fire on the night of the Fourth. Superintendent Ware and family occupied rooms in the building, and lost all their furniture and clothing. S. A. Hamlin and family, a farmer, formerly of Reno, occupied an adjoining house, which was also consumed, together with its contents. No insurance.

Valuable Inventions.

The roller-skate patent is valued at \$1,000,000; Bell, the telephone man, has risen from the condition of a church mouse to that of a bloated bond holder, and the dauntless negro, which can be seen in the shop windows, brings to its inventor an income of \$80,000.

Did not Celebrate.

Susanville did not pay any attention to the Fourth. The good people of that usually patriotic town did not even buy a flag.

PERSONALS.

Gen. R. M. Clarke spent the morning in Reno.

Paymaster Mills of the V. & T. was in town last evening.

R. H. Lindsay and wife have gone to Truckee and Donner Lake for a vacation.

Bishop Monogue of the diocese of Nevada was a passenger for California this morning.

Col. C. C. Stevenson, Gold Hill, and wife, and Miss Hattie E. Fairchild, San Francisco, are at the Depot Hotel.

District Attorney Alexander and wife and Lieutenant E. L. Bridges have gone to Pyramid Lake for a day's fishing excursion.

Bert Rising, son of Judge Rising of Virginia City, has been appointed one of Wells, Fargo & Co.'s messengers on the C. & O.

Rev. G. R. Davis, Rector of St. Paul's Episcopal Church at Carson, was a passenger for Nevada, Cal., this morning, where he goes to take a short vacation among old friends.

Hon. Tom Lane, who was twice a member of the Nevada Assembly from Storey county, and at present a resident of Benton, Cal., went to San Francisco this morning to have a bruised finger treated.

Senator Marker is slowly recovering from the injuries he received while giving battle to his vicious bull, and will soon be well again. He fears, however, that his arm will always be stiff at the elbow joint.

Mrs. Blakeslee of the Humboldt House accompanied by her daughter Carrie, who has been attending Bishop Whitaker's School for Girls, were passengers for home this morning from San Francisco, where they have been since the commencement of vacation.

Aaron Wingate, who in the palm days of Aurora was a prosperous merchant there, and who for many years was an attaché of the Carson Mint, came from below this morning, where he has resided for the last two years. Mr. Wingate is on his way to the Genoa Hot Springs, to endeavor to rid himself of the rheumatism.

SUSANVILLE NOTES.

The Hot Sun and North Wind Destructive to the Crops—Items of General Interest.

SUSANVILLE, July 3.

Ed. Gazette:—For a week past the weather has been remarkably hot, the thermometer ranging from 90° to 98° in the shade. The result is that many fields of grain are spoiled, and there will not be half a crop the coming harvest. The hay crop will be a good average. In Big Valley the hay and grain crop never promised so well as it does now.

The waters of Honey lake are fast receding, which makes the fence question a serious one to farmers along its shores.

Many farmers have commenced cutting their hay at least two weeks in advance of former years. The Assessor's books will show an increase in the valuation of property in the county of about \$200,000 the past year.

In Susanville business is quite brisk. The merchants are doing a lively trade. The town is steadily improving, a number of residences being in the course of erection.

Joe Hale met with a curious and painful accident last Sunday night. While examining a giant-powder cap, he accidentally let it fall a few inches, when it exploded, lacerating his left hand so badly that it was deemed necessary to amputate a portion of his thumb and one finger. Some fine strings of trout have recently been caught in Susan river.

R.I.X.

A PETRIFIED FOREST.

Three Hundred Acres Of Forest Trees Turned To Stone.

Andy Fife, while prospecting for wood up along the Colorado river, informs the *Pioche Record* that he came upon a petrified forest on the Arizona side of the river. He says it is located in the Buckskin Mountains, near where the river cuts through the range, and he should judge it was over 300 acres in extent. There are petrified trees twenty inches in diameter. There is not a bush on this area that is not petrified; the sagebrush and grass all being turned to stone. It is near this locality where Captain Powell, who claims to have traveled through the canyons of the Colorado by boat, is endeavoring to have the Government establish a National Park. Mr. Fife says the locality is no more fit for a park than the Mojave desert, there being neither shrub nor trees excepting a few scrub pines, on the ground.

A Verdict for the Plaintiff.

The jury in the Russell-Bergman case returned a verdict last night for the plaintiff, giving him \$3,000 damages. As the jury fees were not paid the verdict has not been recorded. Dr. Bergman has been practicing his profession in this State for nearly 20 years and has a large and lucrative practice. His reputation has been established long years ago, and the result of this case will do him no harm.

L. O. F. Notice.

There will be a special meeting of Truckee Lodge No. 14, Friday evening, July 6th, at 8 o'clock sharp, for receiving reports of retiring officers and installation of officers elect. Members of Reno Lodge No. 19 and transient brothers cordially invited. J. E. Smith, N. G., F. C. Uptide, Secretary.

THE BIG ENGINE.

A Monster of the Rail That Will Haul All Creation.

The Pacific coast is never satisfied until it has the biggest specimen of everything in the world. It has the steepest mountains, the tallest trees, the biggest ferry boat; raises the most wheat and all that, and it is to have a good deal the biggest engine ever run. There are already 18 of the Central Pacific engines out of 27 ordered that are the largest kind yet built, but the new one will be much larger. The 18 are 12-wheelers, that is, they have five drivers on a side, making 10 wheels and a front truck with two wheels. They weigh 95 tons. One of them, the Mastodon, is at the Chicago railroad exposition, and beside it is the smallest locomotive ever built. It is simply a toy, although a perfect engine. The new monster is being built in the Sacramento shops, and will weigh 105 tons. Mr. Stevens has selected the name "El Gouverneur" for her, in honor of Governor Stanford, who ordered her built. She will be a 14-wheeler, having six drivers on a side and a pony truck in front. She will have Mr. Stevens' new valve motion, moved with one eccentric inside the frame. The engine will be out in about 90 days. The frame is being forced, the boiler is all out and the cylinders are on the lathe. She will have cylinders 21 by 36 inches.

VACATIONS.

County Officials and Lawyers Preparing to Rest and Grow Fat.

The merchants, professional men, and, in fact, all classes have some season of the year which they set aside for rest and pleasure. This seems to be the time chosen by the attorneys for their mosquito hunt in the mountains and valleys. The District Court has adjourned, and Judge Boardman will leave for Webber and Independence Lakes very soon. All the officers of the Court intend to hunt cool retreats this month—some of them having already left town. One year, a long time ago, however, a newspaper man took a vacation, but it only lasted about three days. His short bits and quarters were all gone the first day, but he managed to subsist for two days after that by promising to lie like a whitehead when he again picked up his Faber. That is the only instance on record that anyone in any way connected with a newspaper office was ever known to take a vacation.

Justice's Court.

The following were arrested last night, and interviewed by Judge Young this morning, all for drunken and disorderly conduct: Mrs. J. Bailey of the Big Tree Saloon plead guilty, and fined \$15. This woman was wandering about on Plaza street last night, almost entirely nude. Wm. A. Tetterton, d. and d., was turned loose on his own recognition.

Patrick Gallagher, a belligerent Celt, plead not guilty, and will be heard this evening at 6 o'clock. Charley Cahill plead guilty, and fined \$10.

The historical John Doe is still in jail, too drunk to give, his real name.

Bodie Still Lives.

Eleven bars of Bodie bullion went below this morning per Wells, Fargo & Co. indicating a pretty healthy condition of affairs in the town above the timber belt.

Moved to Salt Lake.

Ed. Dickinson, General Superintendent of the Western Division of the Union Pacific, has moved his office from Denver, Colorado, to Salt Lake City.

Read the Marker brothers ad. in the 50 cent column; they want farm hands.

A Chicago Merchant's Experience.
After I had become almost skin and bone, with neither strength, appetite nor ambition left and the doctors couldn't help me, two bottles of Parker's Ginger Tonic cured me completely. M. B. Westcott, Lamp Mfr., Chicago. je23ml

The best Spring medicine known is that wonderful tonic, Brown's Iron Bitters.

BORN.

BRASHER—In Susanville, Cal., July 1, 1883, to the wife of Wm. Brasher, a daughter.
